The Grand Prix TR introduces tubeless-ready technology to a wider audience

- New 4-ply construction to balance weight and puncture protection
- Available in a wide range of sizes

Hanover, Germany, March 4, 2025: Continental has unveiled the Grand Prix TR, a new road tire that blends value with tubeless-ready performance. Positioned within Continental's endurance segment, the Grand Prix TR is designed for cyclists who want a dependable, all-round tire for training, commuting, and long-distance rides.

Building on the legacy of the GP5000 family, the Grand Prix TR incorporates technologies like Continental's renowned BlackChili compound, offering an optimal blend of grip and rolling resistance. The all-new 4-ply construction balances low weight and puncture protection, making it ideal for riders racking up the kilometers over the season.

Hannah Ferle, Product Manager - Road at Continental Tires said:

We recognized that many riders wanted to experience some of the performance benefits of our top-tier race tires in a more accessible package. With the Grand Prix TR, we've brought tubeless-ready technology, strong puncture protection, and excellent rolling resistance to a wider audience. It delivers a smooth, confident ride across a variety of road surfaces — making it a tire for every ride.

With the Grand Prix TR, Continental is introducing a new generation of entry-level road tires that incorporate learnings and technologies from its premium lineup. This launch highlights Continental's

commitment to making advanced tire innovation more accessible to a broader range of cyclists.

In addition to the tubeless-ready version, a tube-type version will also be available in select sizes.

Key features of the Grand Prix TR

- Available in Black or Transparent Sidewall
- Dimensions: 25-622, 28-622, 30-622, 32-622
- Technology: BlackChili compound, 4-ply construction, tubeless-ready and hookless compatible.
