Porsche Approves Continental Summer Tires for the Macan

PUBLISHED NOV 5, 2025
BY CONTINENTAL AG

The electric SUV is available with either sporty SportContact 6 or comfort-focused CrossContact RX

- For the colder months, Porsche recommends the WinterContact TS 860 S

- In addition to the Macan, Porsche models such as the Taycan, Cayenne and Panamera are also fitted with Continental tires

Hanover, Germany, November 5, 2025. Whatever the season, Continental helps ensure year-round performance and safety for the Porsche Macan. The all-electric SUV is available with Continental's SportContact 6 for uncompromising sportiness or the CrossContact RX for enhanced comfort during summer driving. For winter conditions, Porsche recommends the WinterContact TS 860 S. All tires come with the XL marking, indicating increased load capacity.

Always the right choice: sporty or comfortable

The SportContact 6 delivers exceptional grip and outstanding safety at high speeds of up to 350 km/h. To meet the performance demands of high-powered sports vehicles, Continental developers in Hanover optimized the tread compound, pattern and construction. The tire features several innovations, including a high-grip rubber compound, a specially designed tread for optimal force transmission and a newly developed reinforcement structure. The SportContact 6 belongs to the ultra-ultra-high-performance (UUHP) segment, designed for the most demanding driving experiences.

For drivers who prioritize comfort and low road noise, the CrossContact RX is the ideal choice. This all-season tire features a specialized tread technology and a tailored siping concept. Its groove geometry ensures fast and reliable water removal from the contact surface, significantly reducing the risk of aquaplaning and ensuring strong grip and short braking distances on wet roads.

Depending on the version, the CrossContact RX is approved for speeds of up to 270 km/h. For the Porsche Macan, Continental supplies versions with a speed rating of V, suitable for speeds up to 240 km/h.

Sporty performance and outstanding safety in winter

The WinterContact TS 860 S is engineered specifically for the high demands of sports cars and high-performance, handling-focused vehicles and SUVs. It delivers outstanding performance when it comes to dry braking and handling in the snow, offering maximum control, stability and driving enjoyment – especially for sporty drivers. The tire is also well suited to the instant torque and acceleration of electric vehicles. Additionally, its exceptionally low rolling resistance helps extend the range of electric cars and SUVs.

Porsche’s trust in Continental extends beyond the Macan. The premium tire manufacturer also supplies original equipment tires for nearly the entire Porsche lineup, including the Taycan, Cayenne and Panamera.

These tire lines have been approved for the Porsche Macan in the following sizes in numerous countries:

SportContact 6 NE0, 295/40 R21 111Y XL

SportContact 6 NE0, 255/45 R21 106Y XL

CrossContact RX NE0, 295/35 R22 108V XL

CrossContact RX NE0, 255/40 R22 103V XL

CrossContact RX NE0, 295/40 R21 111V XL

CrossContact RX NE0, 255/45 R21 106V XL

CrossContact RX NE0, 285/45 R20 112V XL

CrossContact RX NE0, 235/55 R20 105V XL

WinterContact TS 860 S NE0, 295/35 R22 108V XL

WinterContact TS 860 S NE0, 255/40 R22 103V XL

WinterContact TS 860 S NE0, 285/40 R21 109V XL

WinterContact TS 860 S NE0, 255/45 R21 106V XL
