The European Insurance and Occupational Pensions Authority (EIOPA) has set out its strategy for the period 2023 – 2026.

Current geopolitical tensions due to Russia's unprovoked invasion of Ukraine coupled with lingering effects of the pandemic, market volatility and inflation underline the need for effective supervision. Building on a strong foundation, the strategy is designed to strengthen the resilience and sustainability of the insurance and pensions sectors, and to ensure the strong and consistent protection of consumer interests across the European Union.

Under the overall vision of building a safe and sustainable EU for citizens in times of transformation, EIOPA has identified strategic priorities on which to focus.

To fulfil its objectives, EIOPA will continue to work in a collaborative and consultative way, valuing the guidance of its Board of Supervisors, and the input from a range of stakeholders.

EIOPA has also published its Single Programming Document, including the Annual Work Programme for 2023.
