

Nestlé inaugurates packaging research institute, first-of-its-kind in the food industry

PUBLISHED SEP 12, 2019
BY [NESTLÉ](#)

Nestlé today officially inaugurated the Institute of Packaging Sciences, the first-of-its-kind in the food industry. The new [Institute](#) enables Nestlé to accelerate its efforts to bring functional, safe and environmentally friendly packaging solutions to the market and to address the global challenge of plastic packaging waste.

Speaking at the inauguration, Mark Schneider, Nestlé CEO, said, "Our vision is a world in which none of our packaging ends up in landfill or as litter. To achieve this we introduce reusable packaging solutions and pioneer environmentally friendly packaging materials. Furthermore, we support the development of local recycling infrastructure and deposit schemes to help shape a waste-free world. The Nestlé Institute of Packaging Sciences enables us to create a strong pipeline of sustainable packaging solutions for Nestlé products across businesses and markets."

The Nestlé Institute of Packaging Sciences focuses on a number of science and technology areas, such as refillable or reusable packaging, simplified packaging materials, recycled packaging materials, high-performance barrier papers as well as bio-based, compostable and biodegradable materials.

Stefan Palzer, Nestlé CTO said, "Reducing plastic waste and mitigating climate change effects through cutting-edge technology and product design are a priority for us. Nestlé experts are co-developing and testing new environmentally friendly packaging materials and systems together with our development centers, suppliers, research institutions and start-ups. Located at our Nestlé Research facilities in Lausanne, Switzerland, the Institute also leverages our existing research capabilities in food safety, analytics and food science."
