AMSTERDAM – The Stellantis Pro One commercial vehicles offensive delivered outstanding results in 2023, accounting for one-third of the €189.5 billion Net revenue reported by Stellantis for the year. The performance highlights the strength of Stellantis Pro One in global markets and puts it solidly on track to achieve global leadership in commercial vehicles by 2027 and to reach the targets outlined in the Dare Forward 2030 strategic plan.

Bolstering its continuing market leadership in both commercial vehicles and BEVs in Europe 30, Stellantis Pro One has the No. 1 position in light commercial vehicles in South America in 2023 and vaulted into the No. 2 position in the Middle East & Africa with a gain of 7 percentage points.

An additional highlight is the sales growth of one-ton pickups in the “third engine” – the combination of South America, Middle East & Africa, and India & Asia Pacific – that is a prime revenue center for Stellantis.

In the key North America market, Stellantis Pro One rose to the No. 2

position in the van segment with a 20% market share, and a No. 3 overall position in the region. These metrics provide a solid base for growth as Stellantis expands its commercial vehicle offerings in the region, including the launch of the Ram ProMaster BEV and the 2025 Ram 1500 pickup.
