

# Volkswagen ID. Buzz((ID. Buzz/ ID. Buzz Cargo – The vehicles are near-production concept cars and have not gone on sale yet.))): sustainable, with plenty of attention to detail

PUBLISHED MAR 6, 2022  
BY [VOLKSWAGEN](#)

Compact on the outside, spacious on the inside: ID. Buzz and ID. Buzz Cargo – whether you choose the bus or cargo version, both models utilise the space extraordinarily well thanks to the space-saving MEB concept. The five-seater ID. Buzz provides space for 1,121 litres of luggage even with all passengers on board. The maximum storage volume of the ID. Buzz Cargo, equipped with a partition behind the first row of seats, also amounts to more than 3.9 m<sup>3</sup>.

Two-tone, with plenty attention to detail. The ID. Buzz will be available in seven single colour options and four two-tone colour schemes. This combination of white and fresh colours is carried through to the interior, which incorporates style elements from the T1 generation and transfers them to the current era of electric mobility. The colours correspond to the exterior paintwork and are optionally reflected in the seat cushions, dash panel and door trim. Background lighting (optionally available with up to 30 colours) provides atmospheric accents. The attention to detail in the new model is also evident in a number of individual ID. Buzz motifs that decorate the interior in various places. Most of them are only discovered at second glance – even functional and intelligent features such as a bottle opener and an ice scraper can be found here.
